specializing in

**Biology Study Guides & Resources
for students and teachers in British Columbia**

STUDY GUIDES	Our Student Study Guides are compiled specifically to match the biology curricula of BC. Both resources are written in an easy-to-understand manner. The books have a soft, coloured cover with a glue-in binding and are 3-hole punched so they can be kept in students' binders.
PICTURE FILES	The Picture Files are excellent resources for teachers. Each CD contains all of the diagrams in the corresponding study guide. Most of the diagrams are available in a labeled and an unlabeled version in PDF and Word formats for easy access. These are ideal for generating projection images or inserting into quizzes, worksheets or tests.
ANSWER SETS	The Biology 11 Study Guide has a separate Answer Set, another great resource for teachers available only on a CD in both Word and PDF formats. The CD includes the answers to all the questions in the study guide. (The answers to questions in the Biology 12 Study Guides are in the Student Study Guide.)

To place an order, complete the following sections:

	#	Unit Cost	Total	
Study Guides	Biology 11 (2008 edition)	\$12.00		*HST on Study Guides = 5% HST = \$ _____
	Biology 12 (2008 edition)	\$10.00
